Speaking at the opening of the Global Anti-Counterfeit Summit on Monday, Barroso stressed the importance of cooperating with China in anti-counterfeit and intellectual property rights (IPR) protection operations. "Unless we successfully engage China, everything else we do would be a mere side-show. Here too, progress is being made."

Barroso called for more consumer education. "The role of consumer education is paramount. From early years and throughout their adulthood, consumers should become aware that the choices they make every day shape the world, for better or for worse."

Databases in Chinese

About 2.5 million diaries were distributed among schoolchildren across the EU last year with information about brands and the dangers of fake goods.
